

Dear President Biden,

We strongly support the Marcus Garvey Exoneration Campaign working to support HR 133 and the Garvey family's effort to secure a posthumous pardon for the Honorable Marcus Mosiah Garvey.

Despite his significant contributions to the economic advancement and human rights for People of African Descent worldwide, Marcus Garvey was convicted of mail fraud in 1923—a charge widely considered to be politically motivated and unfair.

We believe Garvey's Posthumous Exoneration would be an important step in not just addressing a historic injustice, but would also help inspire change in these current times.

We ask that you take the necessary action towards clearing Marcus Garvey's name.

Sincerely,

Drew Serres
